## \*New Business Program for Engineers

**Informational Sessions: Tues., Nov. 16, 4-5:00 pm, 301 CSL and  
Wed., Dec. 1, 4-5:00 pm, 301 CSL**

The College of Business at ILLINOIS now offers a Masters of Technology Management (MS TechMgmt) Program designed specifically for newly graduated engineers before they enter the workplace. This new program takes only one year and it provides practical business training for people who will work in a technology-backed environment.

Called the "Graduate Track" MS TechMgmt program, it differs from the "Advancement Track" in that it is designed for students who have worked for less than two years, said the director of the program, Dilip Chhajed, professor in Business Administration. The Advancement Track is the original program and will still assist students with more than two years of work experience.

Program directors and experienced professionals will be on hand to help you decide if this is an opportunity for you. Inquiries and RSVPs should be directed to Donna Foley, [dfoley@illinois.edu](mailto:dfoley@illinois.edu) or 217-265-6706.

## \*Honeywell Automation and Control Solutions

'HUG' Competition Encourages Students to Embrace Process Manufacturing Solutions

The Honeywell Users Group (HUG) student competition – which was originally launched in the

Europe, Middle East, and Africa region and is now open to students in North and South America – challenges students to design automation solutions to common problems facing process manufacturers.

This year, students can choose to design a plan that solves critical plant issues using either wireless technology, or simulation software. Selected students will present their winning entries to leading manufacturing companies and potential employers at the annual Americas Honeywell Users Group Symposium customer conference, held each June in Phoenix.

“The HUG student competition is part of Honeywell’s overall initiative to help nurture the talent that will drive the future of our manufacturing industries,” said Norm Gilsdorf, President, Honeywell Process Solutions. “Our customers operate some of the most critical facilities in the world, and the goal of this program is to give students a taste of some of those real-world problems that require critical thinking and cutting-edge technology.”

Read more about the HUG student competition [here](#).

**\*Interest in Institute of Aviation**

"Illinois Business Consulting is doing a project to assist the Institute of Aviation, looking into determining the feasibility of various flight programs. We are requesting 5 minutes of your time to assist us with our project. Please follow the link below and take the survey asking for your interest in these various flight programs. Your input is highly valued and will be an important component in our research!"

**\*Test Anxiety Diagnosis and Treatment**

Dr. Paul Joffe, clinical counselor, will be meeting with students who have test anxiety each Monday from 1-2:00 pm in 206 EH. This is generally handled within a two appointment cycle— one for diagnosis and one for treatment. Dr. Joffe has a 70-80% success rate on helping students improve. Call the Academic Programs Office at 333-2280 or email [Buchner@illinois.edu](mailto:Buchner@illinois.edu) to schedule an appointment. If this time not convenient, can call 333-3704 to schedule with Dr. Joffe for another time at the Counseling Center.

**\*AE Tutoring Sessions**

**Monday-Thursday from 5:30-8:30 pm, Room 319M Talbot Lab**

The tutoring sessions will begin on Monday, August 30, 2010. The tutors will help with all technical courses. All students are welcome to use the tutoring sessions or if you just need a quiet room to study. If you have further questions or concerns, please email Barb Kirts at [bkirts@illinos.edu](mailto:bkirts@illinos.edu)
